

# Sales Performance vs Monthly Revenue Targets (2024)

Revenue Target

This dashboard aims to analyze how customer sales performance aligned with predefined monthly revenue targets throughout the year 2024. Revenue consistently outperformed targets, averaging 61% above expectations and achieving 16% growth over the year. Rio de Janeiro and the Shop category led in target overachievement, while Beer dominated total revenue. A sharp spike in May was driven by a single establishment in Rio. The analysis reveals patterns of consistent outperformance and highlights key contributors by city, category, and customer type.
